

Austin Teague

Founder & Software Engineer — Solutions Engineering · AI-Enabled Delivery

[linkedin.com/in/adteague](https://www.linkedin.com/in/adteague) github.com/adteague

ABOUT

Customer-facing technical leader with 10+ years of experience bridging engineering, product, and go-to-market teams. Skilled at using AI-assisted workflows to accelerate discovery, solution design, prototyping, implementation, and technical enablement. Proven track record translating ambiguous business problems into scalable software, data systems, APIs, and blockchain-based platforms.

EXPERIENCE

Splintered Glass Solutions

Feb 2024 — Present

Contract Project Lead & Solutions Engineer

- Lead end-to-end solution delivery for clients across multiple industries — primary technical point of contact from discovery through implementation.
- Built AI-assisted delivery workflows accelerating discovery, architecture, prototyping, QA, and documentation.
- Leveraged AI to build a proof-of-concept platform that helped a client raise **\$1M+ from investors**.

Revv

Jun 2023 — Dec 2025

Co-Founder & CEO

- Built and scaled a Web3 analytics platform supporting **36 agencies, 160+ campaigns, 2,700+ creator activations**.
- Designed and implemented smart contracts enabling on-chain audience analytics for creators.
- Led customer discovery, go-to-market strategy, and product positioning.

Xsolla ZK

Jan 2025 — Jul 2025

Consultant

- Identified and engaged 20+ Web3 game studios for ecosystem expansion; collaborated on the Xsolla x zkSync Gaming Program.

Arca Investments

Jan 2021 — Jun 2023

VP of Strategic Operations · Director of Business Intelligence

- Grew AUM by **\$85M** managing the end-to-end launch of Arca's first NFT fund and venture capital fund.
- Built internal systems for real-time wallet tracking and risk monitoring; developed company-wide KPI dashboards.

Early Career — Fintech, Fitness Tech, Sports Marketing

2014 — 2021

Marketing & Data Analysis

PERSONAL PROJECTS

LiveFrame (Technical Co-Founder, 2025–2026) — Real-time audio analysis + LLMs that detect high-value moments in live broadcasts and auto-generate clips.

Vendly (Technical Co-Founder, 2022–2024) — Collaborative wedding-planning platform connecting vendors and clients in one workspace.

Daily Grub (Founder, 2018–2020) — Audience intelligence and growth insights for food-recipe content creators.

CORE SKILLS

AI-Enabled Delivery: AI-assisted prototyping, prompt engineering, AI code review, workflow automation, LLM-powered product features, AI-assisted QA

Engineering: TypeScript, JavaScript, APIs, SQL, data pipelines, AWS, GCP, blockchain / smart contracts, frontend & backend systems

Customer-Facing: Solution architecture, technical discovery, implementation planning, stakeholder management, executive communication

Product & Strategy: 0→1 product development, roadmapping, GTM strategy, market analysis, technical feasibility assessment

EDUCATION

Texas A&M University — MS in Marketing

Dec 2013

University of Mary Hardin-Baylor — BBA in Marketing

Dec 2011
